

# Engaging Stakeholders

*A network of leading companies dedicated to advancing stakeholder engagement and transparency in pursuit of a more sustainable world.*

## MEMBER BENEFITS

SustainAbility hosts the network, drawing on our connections to thought leaders across the corporate, NGO and academic sectors to bring members the latest insights. The following is an overview of the annual benefits of membership.

### In-Person Workshops

SustainAbility hosts annual workshops, which enable valuable face-to-face discussion with peers and experts while exploring key topics of relevance for the corporate transparency agenda. We develop the agenda with members and build on our research theme. Members may bring up to three people as part of the membership fee.

### Member Briefings

We deliver a customized briefing related to our latest think tank research and analysis in at least one annual meeting with you, in-person or virtually.

### Research Project

We conduct one major research project each year, involving members as part of the research, on a topic related to the transparency agenda. Phases of the research are delivered throughout the year through webinars, in-person meetings, and peer calls, with delivery of the full research findings at the workshops.

### Virtual Meetings

Regular webinars and peer calls explore new trends and best practices in transparency. Previous examples include peer input on sustainability reports, best practice in employee engagement, corporate governance, and scenario planning on water risk. Attendance in webinars for Engaging Stakeholders members is unlimited.

### Curated Virtual Network

SustainAbility curates an active on-line discussion and information-sharing forum for members. This fosters conversation on topical issues among the membership.

### Account Management

Member companies are assigned a dedicated liaison from SustainAbility who is on hand for advice, and whose role is to get to know your business and its unique challenges. Liaisons meet with companies regularly, sharing ideas and channeling insights on sustainability issues.

### Discounted Consulting

Members receive a discounted rate on SustainAbility consulting fees for work above and beyond the benefits provided through the network. A discount of 10% applies for projects up to \$100,000 (or equivalent).

## JOIN NOW

Corporate membership costs just \$20K per year. Some of the world's biggest brands are members. To start networking with them today or to find out more call us at **+44 20 7269 6900** or **+1 718 305 4537** or email [stakeholders@sustainability.com](mailto:stakeholders@sustainability.com)
